Hello there!

I moved here back in July and the home I bought is much smaller than the one I came from so I need to de-clutter a bit. I have a really nice desk (solid wood) and mission style. From the move there is a small crack in it but overall it's the bee's knees. I have other stuff too. I am in Klawock. If all else fails and I don't get what I want I need to hire some guys to help me move it into storage. I am a single mom so I am not trying to move a 300 lb desk by myself. Sorry no picture... just don't have one yet.

Just moved into this home.
